GEH-01-060
PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Zahm et al.

Serial No.: 09/585,192

Filed: June 1, 2000

For: METHODS AND APPARATUS FOR MEASURING
NAVIGATIONAL PARAMETERS OF A LOCOMOTIVE

Art Unit: 3661

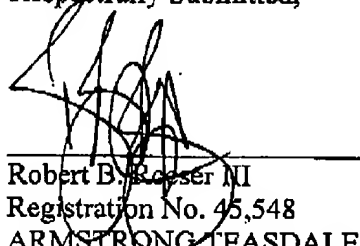

Examiner: B. Broadhead

**QUESTION FOR DISCUSSION PURPOSES ONLY TO EXAMINER AFTER FINAL
OFFICE ACTION**

Sir:

1. From the Section 102 rejection of Claims 1-3, 15-17 and 30-31, it appears Examiner is equating vehicle "attitude" as described by Lightsey and locomotive "heading" wherein heading represents the direction of travel as claimed in the instant case. Applicants wish the opportunity to discuss the differences between "attitude" and "heading" wherein heading represents the direction of travel so as to resolve any differences in interpretation.

Respectfully Submitted,

Robert B. Reiser II
